

# Northwest Tillers..... .....More than just a mulcher.

*Turf Tiller*

\*\*Dual Drive Shown

Built In The **U.S.A.** For The Serious Farmer

The Northwest Turf Tiller can save you time and money by completely and evenly incorporating rocks, clods, and turf remnants in One Pass, eliminating many passes with a disc. The Turf Tiller features a special reverse drive rotor and blades to maximize tillage that eliminates clods. With heavy-duty gearbox and cooled by an external cooling system, the Turf Tiller will handle the toughest conditions on the hottest days.

- Buries clods, rocks, & turf residue below cutting zone
- Leaves soil fines on surface for quick germination
- Adjustable soil recovery pan for precise control
- Full depth tillage
- Virtually eliminate the need for multi-pass discing
- Reduces ground preparation time and cost

## ***Rugged Durability And Designed to Protect Your Investment***

Plan on a long life expectancy with a Northwest Tiller. Every unit is manufactured with American-made ¼" to ½" steel throughout. But tiller toughness goes much deeper than the hide:

### **Standard Features:**

- Hard-faced blades
- Steel roller
- 235 hp gear case with gear case cooler
- 55n PTO
- Side extension plates
- Adjustable rear soil recovery pan
- 6 belt drive system
- Front soil barrier
- Plastic Liner
- Special 2" longer "L" blade

### **Optional Features:**

- Dual drive

### **The Belt Drive: Designed to protect your investment.**

The Northwest Rotary Tiller is known throughout the world for its unique belt drive technology. Not only will our belt drive outlast clutch systems found in most implements today, but it'll protect your tractor and PTO as well. It safeguards tractor investment and reduces crucial down times by absorbing the shock.

Before

After
